SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **CDPH Statewide Travel Advisory**

The California Department of Public Health (CDPH) has issued a new Travel Advisory superseding the 11/13/20 guidance. Californians should avoid non-essential travel to any part of California more than 120 miles from one's place of residence, or to other states or countries. Non-essential travelers from other states or countries are strongly discouraged from entering California, and if they do, should adhere to quarantine procedures. All persons arriving in or returning to California from other states or countries should self-quarantine for 10 days after arrival, except as necessary to meet urgent critical healthcare staffing needs or engage in emergency response.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- No significant weather of concern.

SOUTHERN CALIFORNIA

- Another potentially strong and damaging Santa Ana wind event is expected to impact wind prone areas of LA and Ventura counties Wednesday night to Thursday.
 - The strongest winds with gusts 60 to 80 mph will be possible for the mountains and foothills, with coastal and valley areas likely to see wind gusts in the 40 to 60 mph range.
- Mostly moderate strength northerly Santa Ana winds for late Wednesday night into Thursday morning with the stronger winds along and near the coastal slopes of the Santa Ana Mountains and the mountains in San Bernardino County.

WEATHER KEY POINTS

02/23/21 - 03/01/21

Tuesday-Monday

- Gusty conditions will continue over central California, including the Sacramento Valley and northern Sierras, and the southern California mountains again today
 - Localized elevated fire weather conditions possible across the southern California mountains due to low humidity
- Additional rounds of gusty winds expected for mid and late week, especially Wednesday and Thursday
 - The strongest gusts are expected across the Sacramento Valley and Bay Area on Wednesday, spreading into southern and southeastern California Wednesday night and Thursday
 - Elevated fire weather conditions may develop in some areas with these winds and expected lower humidity
- Gusty conditions are possible over northern California Friday and into the weekend, with a chance for some precipitation returning to northern parts of the state Saturday through Monday, though the chance is quite small at this time
